

## You think you are in control of the traffic situation. But you are not.

We believe that virtual training increases the quality of live outdoor driving. re-lion Drive gives you, the instructor, the power to shape each situation the way you want instead of driving around hoping for it to emerge. Drive is a cost-effective and proven solution to train novice drivers and retrain experienced drivers. It is used by more than 8000 drivers per year at multiple locations around the world.

### TOP REASONS TO START USING RE-LION DRIVE

#### 1 The instructor as coach

- Train multiple students at the same time
- Automated instruction, scoring and feedback
- Replicated student driver dashboard
- Lesson selection in playlists
- Full replay capability

#### 3 Learning by doing

- Safe, zero risk for the driver and instructor
- Trial and error, show replay afterwards
- View situations from all angles through time

#### 2 Total control

- Cars, trucks, bicycles and pedestrians
- Traffic with scripted behavior
- Traffic with autonomous behavior
- Large terrain database
- Complex intersections and roundabouts

#### 4 Difficult conditions

- Snow, rain and black ice
- Skidding
- Emergency brake procedure
- Driving in mountains
- Vehicle malfunctions
